

Introducing the First and Only Industrial Spray Paint for PLASTIC!

No Primer! • Many Choices!

Whether you're renovating, refurbishing or color coding; you can now give your industrial plastic a new look without priming first. With Krylon® Fusion for Plastic™ paint you can customize basic industrial colors into a variety of 32 different colors. Great for retouching outdoor utilities, PVC pipes, plastic conduit, vinyl molding and siding. From refurbishing phones to fixing up sun damaged golf carts, Krylon® Fusion for Plastic™ paint will make your plastic look like new.

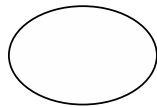

- **The first no-prep superbond paint for plastic™**
- **No sanding or priming required**
- **Bonds easily to plastic, PVC, hard vinyl, resin and more**
- **Indoor and outdoor use**
- **Dries in 15 minutes or less**
